ABOUT US

Established in 1957, Rowland Emergency is a 3rd generation, family-owned, and operated business. We own a 65,000 sq. ft. building in Toronto and employ 30 full-time staff. Our main focus is Emergency Medical Services and dealing with every aspect of Ambulances, Emergency Response Units/Vehicles (ERV/ERU), Medical Equipment and Supplies. We manufacture parts and accessories for ambulances & emergency response vehicles, of which includes an extensive portfolio of cot mounted products. You can also count on us for your Stryker capital and replacement parts as we are an Authorized Stryker Distributor of Emergency Patient Transport Equipment serving all of Canada.

We have been outfitting vehicles into ERV's for over 35 years, with never one issue of non-compliance or meeting certifications set out by the Ministry. A statement we are proud of, and strive to maintain every day. Our ERV's are built using the highest quality parts and materials available, and are installed by long time, highly-trained staff. With this in mind the cost of ownership over the life of the vehicle is less, with no down time. As eluded to, we are the main representative and distributor of Stryker products, parts and warranty services for all of Canada. Stryker Power-PRO stretchers, Power-LOAD Systems, and numerous other medical products are a natural fit for us, and over the years we have become extremely knowledgeable on all their products, parts and services. Therefore, with our stocked warehouse, we are able to cater to your entire emergency vehicle fleet and medical equipment needs in a timely manner. Our expertise and services pertaining to Emergency Vehicles extends to the testing, repair and certification of all on-board equipment; including portable oxygen/suction units, Stryker Stretchers and Powered-LOAD System Upgrades, anti-idle/theft installations, diagnostics and repairs. However, our core competence is our ability to modify, convert, decal, customize, up-fit, service and/or repair all your Emergency Vehicle needs at our facility located in Toronto, Ontario.

Rowland Emergency strictly complies with all Ministry Certifications and Standards, as well as, all products and materials that we use and distribute, comply with the applicable requirements of the Canada Consumer Product Safety Act and its Regulations. In addition to this, we have a Health Canada Medical Device Establishment License, and have recently acquired our Ministerial Authorization Certification; authorizing us to affix the National Safety Mark (NSM) and authorization number to Canadian Compliant Vehicles manufactured by us. Furthermore, we have worked closely with the Ministry of Health on many projects and are therefore well versed on their standards and regulations. We at Rowland Emergency pride ourselves on our efficiency and quality of workmanship, we stock a large comprehensive inventory (for service and warranty) of parts and equipment for all of Canada, therefore Rowlands guarantees to provide you with both parts and services in a manner that minimizes fleet operational impact. Furthermore, we are continually increasing our inventory levels as new customers come on board; ensuring our ability to attend to all their emergency vehicle and equipment needs in a timely manner, all major replacement and major exchange components shall be delivered within 48 hours of warranty work order or purchase order if outside the warranty period.

Furthermore, we have an in-house fabrication department by way of 3D Printing & Modeling Software for Waterjet and CNC Milling Machinery. This allows us to build custom products that serve customers wants and needs in a timely fashion. We design, build and certify our own medical products and accessories; such as IV Poles, Defibrillator Mounting Products, Pole Mounting Blocks and many other products that improve Paramedic workplace safety, ergonomic and efficiencies. For more information on these products and other innovative EMS solutions, please visit our website at www.rowlandemergency.com

A large, light gray square serves as the background for the title. Inside this square, there are several overlapping triangles. A large, light gray triangle points upwards from the bottom center. Behind it is a smaller, light pink triangle pointing upwards. In front of the pink triangle is a larger, darker pink triangle pointing downwards. The text is positioned over these geometric shapes.
