CUSTOM STORAGE SOLUTIONS

The Gold Standard of Quality,
Service and Innovation

Storage Solutions

Certified & Tested

Innovative Design

Easy to Install

Rowland Emergency's Storage Solutions are tested and certified to meet Ministry of Health Safety Standards. Our custom storage solutions maximize every square inch of vehicle storage capacity.

Rear/Cargo Storage

Rowland Emergency's certified Rear Cargo Storage Solution sets the standard for durable and functional emergency vehicle storage. Constructed with lightweight MiG-Tig welded aluminum, it offers strength and rigidity. Rustproof and durable, it features 500lbs rated extra-heavy-duty sliders, secure rotary premium latch mechanism that is tested to meet Ministry Standards. With customizable drawer configurations, rubber mats, and dividers, it accommodates equipment securely.

Side Storage

Rowland Emergency's Side Storage Solution optimizes emergency vehicle storage. With a split design, it maximizes space utilization. Built with durable materials, it ensures longevity. Featuring MiG-Tig welded aluminum, and secure latches, it offers reliability. It provides ample storage, while accommodating specialized equipment. Compliant with Ministry Standards. Versatile and efficient, it delivers easy access and affords customizability.

Centre Console

Rowland Emergency's Custom Center Console provides an ergonomically correct and tailored storage solution for emergency vehicles. Built to exact specifications, it blends functionality and customization seamlessly. With customizable face plates to meet your needs. Designed for radio/computer equipment integration, it ensures quick access. Trust Rowland Emergency for a customized and certified storage solution.

Custom Lighting Brackets

Rowland Emergency recognizes the need to improve upon what is currently in the marketplace and/or offered for custom emergency vehicle lighting solutions. All of our custom lighting solutions are engineered with first responders in mind. We manufacture these custom lighting brackets with powder coating to ensure that they are resistant and able to stand the test of time in all elements.

Options

View our comprehensive list of popular features and items that enhance our array of storage solutions. Whether it be user experience, functionality or efficiency, we ensure that these options complement the customized storage solutions that we offer.

Safety screens are not included with rear storage solutions and need to be ordered separately.
