Rowland Emergency

# STORAGE SOLUTIONS GUIDE

As a proud Canadian manufacturer, our passion is designing and fabricating custom products and solutions for emergency medical service providers.

## Our Story

Rowland Emergency's roots can be traced back to 1957, when our founder, Grant Rowland, started his own vehicle maintenance and repair company. His business vision was simple: to produce high-quality work, service what we sell, and service it well.

In 2000, Grant's son, Scott, recognized a need for quality suppliers in the Emergency Medical Services market and repositioned the company to focus exclusively on the EMS field. Scott's bold and strategic decision paid off, and today, Rowland Emergency is among the most trusted custom EMS solutions providers across North America. The company is now in its third generation of family ownership, with Scott's son, Blake, welcomed to provide a fresh entrepreneurial vision and further innovate our business.

Today, Rowland Emergency continues Grant's legacy by providing clients with unwavering dedication to exceptional workmanship, innovative solutions, and a steadfast commitment to outstanding client service.

As North America's custom EMS solutions provider, we never settle for the status quo. We continuously develop in-house custom EMS solutions that help our clients work better and smarter, empowering patient care while protecting first responders in emergency situations.

## Storage Solutions

Rowland Emergency's storage solutions are **tested and certified** to meet Ministry of Health Safety standards. Our custom range of storage solutions maximize every square inch of vehicle storage capacity to meet your needs. **For video install instructions, please reach out to our team.**

-  **Certified & Tested**
-  **Built for Emergency Response**
-  **Easy to Install**

### Rear/Cargo Storage

Rowland Emergency's certified Rear Cargo Storage Solutions set the standard for durable and functional emergency vehicle storage. Constructed with lightweight MiG-Tig welded aluminum, they offer strength and rigidity. Rustproof and durable, they feature 500 lbs rated extra-heavy-duty sliders, secure rotary premium latch mechanism that is tested to meet Ministry standards. With customizable drawer configurations, rubber mats, and dividers, they accommodate equipment securely.

### Side Storage

Rowland Emergency's Side Storage Solutions optimize emergency vehicle storage. With a split design, they maximize space utilization. Built with durable materials, they ensure longevity. Featuring MiG-Tig welded aluminum and secure latches, they offer reliability. They provide ample storage while accommodating specialized equipment. Compliant with Ministry standards. Versatile and efficient, they deliver easy access and afford customizability.

## **Centre Console**

Rowland Emergency's custom centre consoles provide an ergonomically correct, tailored storage solution for emergency vehicles. Built to exact specifications, they seamlessly blend functionality and customization. With customizable face plates to meet your needs and designs optimized for radio and computer equipment integration, they ensure quick and easy access to equipment.

## **Custom Lighting Brackets**

Rowland Emergency recognizes the need to improve upon what is currently available in the marketplace for custom emergency vehicle lighting solutions. All of our custom lighting solutions are engineered with first responders in mind. We manufacture these custom lighting brackets with a durable powder coating to ensure they are resistant and able to stand the test of time in all elements.

## **Options**

View our comprehensive list of popular features and items that enhance our array of storage solutions. Whether it be user experience, functionality or efficiency, we ensure that these options complement the customized storage solutions that we offer.

## **Model Years**

Our catalogue of rear, side and centre storage systems fit the following years for the respective models.

- **Chevrolet/GM:** Tahoe (2021 - 2026), Bolt (2016 - 2026), Blazer (2024 - 2026), Equinox (2018 - 2024), Suburban (2021 - 2026), Silverado/Sierra (2019 - 2026), Yukon XL (2021 - 2026)
- **Ford:** Interceptor (2020 - 2026), Expedition (2017 - 2024, 2025-2026), F-150 (2021 - 2026), F-250/F-350/F-450 (2023 - 2026)

**Safety screens are sold separately and not included with the purchase of a rear storage system.**
