

Enhancing First Responder Safety

Mounting System for ZOLL® X Series® Monitor

We have defined the way that first responders access their life-saving ZOLL monitors.

Thanks to our cot mounting solution, you can experience unparalleled safety, durability, and efficiency with our industry-leading design.

As a *safe and versatile* mounting solution, the ZOLL X Series mount sets a new benchmark for emergency equipment.

Tested and Certified

Safety

Two-stage locking mechanism with **visual** and **auditory cues** for additive safety and support.

Reflective strip to ensure **visibility** in dark environments.

Versatility

Developed with an **integrated IV mount thread**, a versatile, multi-use system.

Room for ZOLL® bags, **maximize space while on-the-go.**

Efficiency

360° swivel, allowing for **efficient and consistent patient monitoring**, at any vantage point.

Lightest base-plate in the industry, allowing for intuitive, ease-of-use, that doesn't strain first responders.
